

# IHS helps Texas counties lower prisoner medical costs 48% – and more

Indigent Healthcare Solutions (IHS) is helping Texas counties save on their prisoner medical care with user-friendly software that automatically calculates medical bills for county prisoners.

Most prisoner medical expenses are eligible for payment under State indigent health care regulations, and IHS software ensures that indigent rates are applied so the county *always* pays the lowest legal amount.

Just look at the savings realized by two Texas counties served by IHS.
